

ROYAL WOLF BUILDING AND CONSTRUCTION

BUILDING AND CONSTRUCTION COMBINATION

OVERVIEW

Royal Wolf's Builders' Combo provides a total work site solution for on-site storage, office space, ablutions and site facilities, particularly where space is tight.

Constructed within a 10ft high cube container, the Builders Combo incorporates a single toilet and a separate space that can be used for storage or an office area. It comes with a folding plan table and desk to provide the ideal area for reviewing plans and managing paperwork inside, protected from the weather.

As a fully stackable solution, the Builders' Combo can be integrated with a wide range of other containerised solutions such as offices, lunchrooms, amenities blocks, first aid rooms and more, to make the most of a restricted footprint. It can even be stacked up to a height of 40ft with the innovative Soundwall to minimise noise disruptions to surrounding areas.

Ideal for building sites, roadworks, civil and earthworks projects, storage for trades, events, workshops and more, Royal Wolf's Builders' Combo is an easy to transport, highly durable and flexible total work site solution.

SOUNDWALL

OVERVIEW

Working within the confines of suburban areas, construction and event organisers often turn to Royal Wolf to provide containerised sound barriers with designated access points, stacked up to 40- feet high, in order to create an event which satisfies customers whilst providing the minimum amount of noise disruption to the surrounding area.

Royal Wolf containers also have the ability to be stacked in a wide variety of formations allowing a tailor-made solution for music festivals and other highly populated events seeking crowd control.

In 2017, Royal Wolf engineered a Soundwall for the Australian Tennis Open:

Royal Wolf was required to provide a 9 metre high x 80 metre long Sound Wall on a sloping surface with a curved shape to match the landscape. This required a level roof to enable signage to be attached. This facility was critical to Tennis Australia's objective of delivering an outstanding spectator experience as it was to house a 12 metre LED screen providing life size player vision for the audience.

HOARDINGS / GANTRIES

OVERVIEW

Royal Wolf’s container hoardings and gantries are available for long or short-term hire and provide solid overhead protection on building and construction sites. These units are designed to ensure the safety of workers and pedestrians and provide effective 10kPa rated protection from construction materials, debris and other falling objects. The integrated modular units with floor, walls and roof guaranteeing an extremely impact resistant structure.

The hoardings and gantries are amongst the safest on the market with impressive resistance from vehicular impact, slip resistant flooring and unrivaled protection for pedestrians and workers. Royal Wolf’s container hoardings and gantries are designed to compliment our portable building and construction product range, including site offices, toilets and showers. The containerised portable buildings can be stacked on top to provide a complete construction work site solution. Hire Royal Wolf’s hoardings and gantries for all your building and construction projects.

Royal Wolf has a team of engineers who can assist with the planning and layout of the construction site to ensure a unique and practical solution.

PLATFORM

OVERVIEW

Royal Wolf's platforms are an engineered base suitable for use in a variety of applications. They can be used as a stacked multi-level walkway system between site amenities, overhead protection rated to 10kPa for falling objects and offer a practical overhead storage base for those tight footprint work sites.

Outside of the construction industry, platforms are used as bridge flats for culvert or creek crossings and for transporting odd shaped or larger cargo than the dimensions available in general purpose or open top containers.
